Re: Access to documents concerning Mrs Renckens' new post at Syngenta

München, 24. 11.09

Dear Catherine Geslain-Lanéelle,

I am writing with reference to the EFSA document MB 16.09.2003 and to request access to all documents related to the EFSA's decision to allow Mrs Suzy Renckens (head of EFSA's GMO Unit) to move to her new job as 'Head Biotech Regulatory Affairs' with Syngenta. This request further covers access to documents outlining possible conditions and restrictions attached to the permission that was given to Mrs Suzy Renckens to move to her new job.

In case my request is not sufficiently precise, I would appreciate your assistance in further clarifying the wording of this request as outlined in the EFSA's document Article 5.2.
